NOTIFICATION OF NETWORK CHANGE EFFECTIVE 4/1/2024

Dear Member,

The Board of Trustees is pleased to announce a change to your network provider for hospital inpatient & outpatient services, doctor visits, labs, diagnostic centers (ancillary services). We will no longer be using Horizon Blue Cross of NJ and PHCS/Multiplan networks **as of April 1, 2024**. This action is intended to streamline and improve the administration of the existing services and reduce Plan costs. **The network provider change will not result in any changes to your benefits.**

The new network for those services listed is **United Healthcare Choice Plus** which is administered by UMR.

You may access the website at: <https://connect.werally.com>

Among those services, you will find a regularly updated database of in-network providers and a price-comparison-tool to help you make informed choices, as required under the No Surprises Act.

You will now have one (1) card for all the services listed above. Your prescription card through OptumRX and your dental card through Delta Dental of NJ will remain the same.

Please look for your new card in the mail in the coming weeks.

The Plan Office is also currently finalizing a new Summary Plan Description, which will contain new contact information and directions for submission of claims and appeals. Please keep an eye out for the new SPD as well.

Any transition can be challenging, and we know you may have questions. Please contact the Plans office at 732-446-0394 or UMR directly as of **April 1, 2024 at (800)207-3172** for any questions you may have.

Sincerely,

Meghan Brodowski
Administrator
